Nice Upgrade from Alfred piano courseBy AnnieReally happy to see these on , so I can quickly order them for my students when I need them for the following week. I am a piano teacher and I have taught using numerous method books. I believe that every single method book has its strengths and

weaknesses. I much prefer the Alfred Premier over the original Alfred Piano Course series. The Premier series have a much wider range of different genre of music, and introduces popular melodies and jazz style music. The original Alfred Piano Course series boasts mainly of modified folk tunes. It really depends on you and your student's preference, but I have switched a handful of students over from the Alfred Piano Course to the Premier Piano Course, and they all prefer the Premier course over the original Alfred Piano Course. In addition, I think the explanation of concepts in the Premier has vastly improved, and makes it very easy for students to re-read and retain the information they learned during lesson. 0 of 0 people found the following review helpful. GoodBy Axlyn Using this to practice reading music. Pieces are interesting without being too challenging for kid who started piano 1 year ago 0 of 0 people found the following review helpful.
