There is a large span of ability level in just a relatively small number of selections, but all are written on the staff. Also, about half of the songs are unfamiliar to young children. That being said, it does work really well to grow with the students throughout the year, and even the unfamiliar tunes can become their favorites after you get them into it. I had one kindergarten student play "Down by the Station" for a recital, and now she loves to play it. It sounds like a big-kid piece, because it uses easy harmonic intervals. 2 of 2 people found the following review helpful. Perfect PreTime Piano! By Emily A The PreTime Primer piano series is a fantastic way to motivate little ones to practice and develop their playing skills. This particular book in the series is full of popular songs all kids know and love. In this book you will find 3/4 and 4/4 time with mostly quarter notes, half notes, and dotted half notes. There are just a very few sharps thrown in a couple of songs, and a very few eighth notes in a couple (Happy Birthday being one), as well. The songs are in middle C position, C position, and some are just a step between the two positions allowing the young child to experience playing songs with different finger combinations and expand their abilities. This book of songs makes playing and practicing fun and would make a wonderful recital book for the early beginner. 0 of 0 people found the following review helpful. Five Stars By Kayakoto Nice book!

(Faber Piano Adventures). PreTime Piano Kids' Songs is a collection of songs that brings special joy to children. The simplicity, humor, and charm of the selections will enhance the enjoyment of beginning piano for students and parents alike. After all, many of these songs have been passed down from generation to generation: A-Tisket, A-Tasket * Bingo * The Dwarfs' Yodel Song (The Silly Song) * Happy Birthday to You * Mail Myself to You * Mickey Mouse March * On Top of Spaghetti * The Train Song * Winnie the Pooh. The PreTime Piano series provides the earliest level of reading for the beginning pianist. There are no dotted rhythms and eighth notes are used only sparingly.

Tasteful illustrations and use of color add to the charm of the books. [View Helpful Introductory Videos Here](#)
