Beautiful Music from the MovieBy JooliebooIf you loved the music from Pride Prejudice movie (the 2005 Keira Knightly version), you will love this book.The "Easy Piano" version is an intermediate level book, not a beginner book, so be careful if you're just starting out with the piano (and stick with the Big Note version). Likewise, advance players may be a little bored and should check out the Piano Solo

I think that for a beginner (less than a year) it is challenging enough but also easy enough so that the difficulty is not overwhelming. I would highly recommend it. The rhythms have been simplified from the original which is very helpful for me. I think it was a great purchase!3 of 3 people found the following review helpful. Definitely easy!By Linda M. ParkerI'm getting back into piano playing after a few decades of not having a piano. The books from my younger years are currently too hard, as I re-learn how to play. I bought this because I love the music in the movie, and my daughter can play a lot of them (the harder versions!) and I love hearing them. These versions are nice and simple, and I think I'll be playing them at the right tempo soon enough ... and that's exactly what I was hoping for in this purchase.
