A Must HaveBy GylsIf you play priests, druids or shamans on a regular basis, you need this set of books. These volumes contain all of the speels from the Player's Handbook, Tome of Magic and Spells and Powers, as well as all of the differant campaign world books(Dark Sun, Planescape, Ravenloft, Birthright, etc) and from all of the Dragon magazines. 100s of spells that spanned many, many books all compiled into a nice managable collection.

The Priest's Spell Compendium is a three-volume series describing every priest spell for the ADD game. Spells have been collected from rule books, campaign settings, supplements, adventures, and magazines dating back to 1975. Early entries have been updated to be immediately usable, making this the player's and DM's definitive source for priest spells.
