**Carol Kidd : Primary Games Book 1: Crossword Puzzles, Word Search and Fill-in-the-Blanks Spelling Games for Elementary Ages 6-8 (Volume 1)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Primary Games Book 1: Crossword Puzzles, Word Search and Fill-in-the-Blanks Spelling Games for Elementary Ages 6-8 (Volume 1):

4 of 4 people found the following review helpful. Children's Learning Tool For Reading, Writing and SpellingBy BarbFAs an elementary school teacher and grandparent, I think this book is a gem! As the author says, it uses repetition and picture clues to help your child to write, read and spell commonly used words for their age group in three different contexts.1. Word search2. Crossword3. Fill in the blanksThere are 15 sets of these three exercises, each

using between 14 and 20 words that children need to become familiar with - for writing, reading and spelling. The exercises become just a little more difficult with each exercise, so the games could be spread out over quite a period of time and used as a fun learning game. Because many children of this age are still developing their accuracy and lateral thinking skills, I particularly like the idea of using the words in a crossword context, as the child needs no help in working out clues, but will need to be accurate as he copies the word and writes the letters in the boxes for the crossword to make sense. For the "Fill the Blanks" part of each exercise, the author has included cute visual clues to make this learning exercise more interesting and engaging. The word search exercise then hides the same words for the child to find and once again offers cute cartoon images as a hint for each word. The answers are given on a subsequent page...I would personally have my children complete the the word search exercise last, once they have become familiar with what the words look like. It would tie up the exercise nicely and give the child a great sense of completion. Highly recommended for parents who want to provide their children extra learning opportunities - but in a really interactive and fun way. 0 of 0 people found the following review helpful. Great way to get kids started on word games/puzzles By Renee Bradman While it's still a little advanced for her, I'm thoroughly enjoying watching my 5 year old build her confidence as she does the parts of the puzzles that she's able to. This book is a fantastic way to help kids develop a love for word games. It's visually appealing and very creative in its approach to letting kids work independently as they learn. I bought book 2 in the series as well. I know it will be satisfying for Siena to get to "graduate" to the next book after she has worked/played her way through this one! 0 of 0 people found the following review helpful. Travel Puzzles? By Bob Pardue Well, I'm not a big puzzle book person but my wife sure is. We do travel photography together so, when we are on those long road trips the Primary Games book certainly keeps her occupied while I'm driving. :-) Thank you Carol for a wonderful addition to carry along! I look forward to seeing more puzzle books from you in the future. Bob

Unlike many other puzzle books, this series offers your early learner total independence to play them without any assistance from you. It is a self-checking puzzle book that gives a child complete freedom to enjoy words he is learning and to check his answers all by himself easily. In Book 1 of Primary Games, your child will find a book in LARGE PRINT that uses lower-cased lettering. Unlike most other game books, this one uses the SAME LIST of spelling words in each set of puzzle games. This means, that after he has played all the puzzles, he will have a sense of mastery for the words he has been using. Here is what you will find in this resource: 1. Using visually attractive picture images beside each spelling word, your child or student will have an illustration of the word he is learning to spell 2. These SAME spelling words are then used in the WORD SEARCH PUZZLE. Each puzzle only incorporates horizontal and vertical letter placement. Backward and diagonal lettering are not used to prevent confusion 3. The ANSWERS to each word search puzzle can be found on the BACK of the puzzle page, making it easy for your child to receive immediate feedback and any necessary help with his efforts 4. Next, the CROSSWORD PUZZLE incorporates the SAME spelling words your child has been playing with; however, instead of clues, the words are listed, making it fun for him to find the numbers and fill in the "across" and "down" categories 5. In the final puzzle game of the set, your child will get to test himself with a Fill-in-the-Blanks game that uses the SAME words he has been learning in the other puzzle games 6. And because of the large print, your child will have plenty of room to practice writing his letters, eliminating the frustration of spaces that are too small Through the use of REPETITION and learning to see the "SHAPES" of words with lower-case lettering, your child will experience success and confidence--all without any supervision or help from YOU! And be sure to check out Book 2 of Primary Games for continued fun--for you AND your child!

About the Author Having trained in early elementary education, Carol always had the desire to teach children and help them to love learning. After a few years in the classroom, Carol decided to come home to teach her own children. Now in a classroom of four students she knows on an intimate basis, Carol continues to be actively involved in developing some of her own curriculum and making lessons and learning fun and meaningful. As a mom and teacher, Carol's love for teaching small children has begun to find its way into creating books and games for early elementary-aged children where learning is fun, and is presented in such a way that moms and teachers don't have to provide constant oversight of the child. When Carol is not being creative on her laptop, she thoroughly enjoys being outside. From gardening to traveling, and exercising to photography, Carol has a love for life and seeks to make every moment count.
