**From Hal Leonard Corporation : Primer Level Sightreading Bk Faber Piano Adventures** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Primer Level Sightreading Bk Faber Piano Adventures:

5 of 5 people found the following review helpful. Excellent Supplement By MusicalFamily This is an excellent supplement to the Piano Adventures method. I use it as a resource and do not assign it to students to purchase. The pieces are organized thematically, and are short and to the point. Also, they build one off the other in each unit while also correlating to the material presented in the method lesson book. This is a great resource for instructors of piano, and a great tool to incorporate with your level one students who are just getting the hang of rhythms, patterns, and developing musicianship and technique. 2 of 2 people found the following review helpful. Great for beginners! By tara chrapiwy Bought this book when my daughter's piano teacher recommended it for her classes. Very easy to read the music and my daughter can play several songs from the book so I know that she is benefitting from the book.

Recommended for those that are at a beginner level. The product came quickly and in perfect condition. 3 of 3 people found the following review helpful. Very good - very slow approach  
By Customer I like the slow slow slow approach to music reading because it can be overwhelming for kids. This is so gradual they don't even realize they are learning, and it corresponds very well to the Lesson book. Suddenly I have no problems getting my students to do daily sightreading practice.

(Faber Piano Adventures ). This inventive sightreading course uses sets of exercises based on melodic and rhythmic patterns from the 2nd Edition Primer Lesson Book. Students play one exercise a day, completing one set per week. Entertaining musical art helps guide the sightreading process and each page presents a new learning vignette in a spirit of fun.
