**M V Games : Puzzle Challenge: Sudoku, Word Search, Cryptogram, Crossword** before purchasing it in order to gage whether or not it would be worth my time, and all praised Puzzle Challenge: Sudoku, Word Search, Cryptogram, Crossword:

0 of 0 people found the following review helpful. Weird puzzle bookBy Robert EdingIf you are a puzzler at all, this book is ridiculously rinkydink. The word searches are very nice and the sudokus are fine. But for the crossword puzzles, there are only single words that intersect at one or two letters plus there are blanks in the boxes when the answer is two words long. That is not proper for a crossword puzzle. These are not crossword puzzles. The cryptograms are very weird - some letters aren't coded (a HUGE no-no in cryptograms), plus the answer is printed so largely on the back side of the puzzle page that you have to concentrate not to see the answer through the paper. All-in-all, a disappointing book. If it's your first puzzle book and you don't know any better, it may be ok. Otherwise, don't bother.

Multiple puzzle challenge involving Sudoku, Word Search, Cryptogram, and Crossword puzzles. Can anyone complete these 80 puzzles in 40 days or less?
