My all time favorite. That being said.... This guide book is tremendously helpful. Item locations, character locations and the time of their location, walk through it has it all. It literally covers every aspect of the game from beginning to end and has detailed and beautiful pictures and illustrations as well as recommendations for you party at certain points. My early playthroughs I never used the guide I had to constantly run back and forth from my computer to my ps2 back in 2007-2008. I had to write down lists and do multiple playthroughs and restart to get who I needed. In the game you may only have a limited window when you can gain access to a good party member or a necessary one for a stronger member and without this book it can be frustrating. The book is amazing though and though it is fun

to play through with out it and see what kind of wacky team you have at the end, you will be better off with it!!!
Totally recommend this guide and COMPLETELY recommend the game!!
